Subject: Mailbox painting

The Torwood HOA has completed a bidding process to procure professional painting services to refresh the paint and repair the mailbox posts within the entire Torwood Subdivision. A contractor has been selected and is ready to begin.

Over the next 2 weeks the painting contractor will be making his way through the subdivision to repair our mailbox posts and make any necessary repairs to the posts or mailbox platforms. Each post will be properly prepared and then have 2 coats of high-quality paint applied (grey with black lettering and accents). All posts will be painted unless they were recently newly installed.

The work will be conducted in such a way as to minimize interruption of US mail services. Access to your mailbox post will be necessary to perform a quality job. For the next few weeks, please ensure there is adequate space around your mailbox and avoid parking a vehicle or any obstruction around the area, at least through the daytime hours.

We are aware that this project is highly visible to the residents of Torwood and are excited to get this project underway.
